The Florida Winter Golf Schools I offer are a unique blend of old-school and high-tech golf instruction. 35 years of teaching powers my instruction to help you feel your swing and ball flight.

2 0 1 2

At the Florida Winter Golf School we use video analysis, K-Vest 3D motion capture, [SamPutt Lab](#) and Titleist Performance Institute golf fitness assessments to provide students with raw visible data and successful projection for game improvement.

2 0 1 2

PGA Village facilities are outstanding. We will have use of three recently renovated championship courses: two designed by Tom Fazio, and the other by Pete Dye. The instructional venue is the PGA Center for Learning and Performance, a world class practice and teaching facility.

2 0 1 2

At the Learning Center we have use of a private tee and our personal practice hole. The use of the private tee and the practice holes are not open to the public and are only available to PGA Members, such as myself, and our students. We can teach and practice any type of short game shot, sand shot, and any type of unusual lie that you can imagine. In addition we will have use of the Trackman launch monitor and other technologies available at the center.

I am pleased to share with you additional articles that were published by the [PGA Magazine.com](#). A special thanks to those who have made the trip with me and have made the schools a success.
